SRNS Construction Employees Recognized for Safety Milestone

AIKEN, S.C. (April 21, 2011) – The legacy of outstanding safety at the Savannah River Site continues with the current performance of Savannah River Nuclear Solutions Construction forces. SRNS Construction workers recently celebrated surpassing 25 Million hours without losing a day of work due to a job-related injury or illness, continuing their record setting performance which began more than 12 years ago and exceeds the previous records set by DuPont Construction in 1988.

SRNS President & CEO Garry Flowers, DOE-SR Manager Dave Moody and ESH&Q VP Alice Doswell joined SRNS Construction workers during a special celebration held to commemorate this extremely unusual achievement.

SRNS President & CEO Garry Flowers congratulates the SRNS Construction team (top), and speaks with some employees after the celebration (bottom).

The Savannah River Site is owned by the U.S. Department of Energy and is managed and operated by Savannah River Nuclear Solutions, LLC.
