Despite Heavy Rain, SRNS 2012 Heart Walk Campaign Raises \$70,000 in Donations

Exceeds goal by \$20,000 for American Heart Association

AIKEN, S.C. – (March 30, 2012) Savannah River Nuclear Solutions, LLC (SRNS) officials and representatives from the American Heart Association sponsored a special celebration today to recognize the success of the “2012 SRNS Heart Walk Campaign.” Due to heavy rain, the actual walk was rained out on Saturday, March 3. However, despite the unfortunate weather conditions, the campaign raised \$70,000 in donations, exceeding their goal by \$20,000. Sara Schueneman, Vice President of South Carolina, American Heart Association (left) and Valerie Bridges, Director of Corporate Relations, CSRA Heart Walk, receive this year’s SRNS check from (left to right) Robert Gentry, Vice President, Site Services; Joe Legge, Chair, 2012 SRNS Heart Walk Campaign; and SRNS Executive Vice President & COO Fred Dohse. Hundreds of SRNS employees, and many of their family members, had committed to walking during this annual charitable fund-raiser that “touches the hearts” of those in need.

Savannah River Nuclear Solutions, LLC, is a Fluor Partnership comprised of Fluor, Newport News Nuclear and Honeywell, responsible for the management and operations of the Department of Energy’s Savannah River Site, including the Savannah River National Laboratory, located near Aiken, South Carolina.
