FOR IMMEDIATE RELEASE

SRNS Employees Take Time Off to Help Those in Need throughout the Greater Aiken-Augusta Area

Homes, charitable organizations and United Way agencies in Aiken, Barnwell and Richmond Counties receive the assistance of helping hands

AIKEN, S.C. – March 22, 2013 – Dozens of Savannah River Nuclear Solutions, LLC (SRNS) employees have volunteered to work today at eleven United Way agencies to improve the lives of potentially hundreds of citizens living throughout Aiken County during this year's Project VISION, part of the "Days of Caring" United Way program at the Savannah River Site (SRS).

Each year a large number of SRNS employees commit to work during their day off to take on a project that will improve the living conditions of disadvantaged children, low-income senior citizens, the disabled or single parent homeowners. Frequently, a team of volunteers is assigned a project involving a specific United Way agency facility, such as Helping Hands, Golden Harvest Food Bank or the Cumbee Center to Assist Abused Persons.

"This recent effort continues a long tradition of SRS employees organizing into teams one day annually to offer a full day of community service," said Fred Dohse, SRNS Executive Vice President & COO. "Our employees work on a wide variety of projects. It's a full day's work, and we're proud of the values our employees hold and their seemingly endless generosity."

Team projects typically include clearing debris, applying paint, repairing flooring, performing electrical work, putting up dry wall, constructing fences, building wheel chair

SRNS employees work together to paint a bathroom at the Helping Hands facility in Aiken during this year's Project VISION "Days of Caring" community service campaign. Over 200 SRNS employees volunteered to help work on projects at 14 job sites throughout Aiken County.

The Savannah River Site is owned by the U.S. Department of Energy and is managed and operated by Savannah River Nuclear Solutions, LLC.

ramps, replacing rotting boards, fixing faulty plumbing and yard work.

Projects CARE and SERVE will take place on Friday, April 19. Project CARE will focus on residents of Barnwell County, while Project SERVE will assist those living in Richmond County.

Savannah River Nuclear Solutions, LLC, is a Fluor led company whose members are Fluor Federal Services, Newport News Nuclear and Honeywell, responsible for the management and operations of the Department of Energy's Savannah River Site, including the Savannah River National Laboratory, located near Aiken, South Carolina.
