EXPERIENCE

James (J.C.) Epting is the Senior Vice President of National Nuclear Security Administration (NNSA) Tritium Operations and Programs for Savannah River Nuclear Solutions (SRNS), LLC. He oversees daily operations at the Savannah River Tritium Enterprise (SRTE) to sustain a safe, secure and effective nuclear deterrent. Before being appointed to his current position, Epting served as Deputy Vice President and Chief Business Officer of NNSA Operations and Programs for SRNS.

Epting has over 39 years of experience with NNSA, the Department of Defense, and the Defense Threat Reduction Agency in nuclear operations, policy, and programs. Prior to SRNS, Epting served as the International Security Division Manager for Analytic Services Incorporation, leading a team of analysts from across the United States and Europe in support of both Nuclear and Conventional Arms Control Treaties and international negotiations.

Additionally, Epting served 26 years in the U.S. Air Force (USAF) and retired as a Colonel. His distinguished career consisted of service and leadership at three USAF Nuclear Intercontinental Ballistic Missile Units, one USAF Operational Space Unit, two nuclear operational-level major commands, and a strategic-level nuclear assignment at the Pentagon and Joint Chiefs of Staff. Epting also served as Chairman of the Joint Chiefs of Staff's Senior Military Advisor on United States Delegations for Nuclear Nonproliferation Negotiations with Russia, Belarus, Kazakhstan and Ukraine.
