FOR IMMEDIATE RELEASE

Savannah River Site employees recognized with Secretary of Energy Achievement Awards

AIKEN, S.C. (January 30, 2023) — Over 100 Savannah River Site employees were recently recognized as members of teams receiving Secretary of Energy Achievement Awards, including many DOE and contractor employees, based on accomplishments in 2022.

These awards recognize DOE employees and contractors for their service and contributions to the Department's mission and the benefit of the Nation. They represent some of the highest internal, non-monetary recognitions that DOE employees and contractors can receive.

“We are proud to announce that SRS employees are recognized as contributors to several of the Achievement Award-winning teams,” Savannah River Site Manager Mike Budney said. “These exceptional employees deserve both our congratulations and our thanks.”

SRS employees were recognized as contributing members to the following teams:

- Accelerated Basin De-Inventory Team
- Bipartisan Infrastructure Law Standup Team
- Clean Energy Corps Core Competency Interview Team
- Japan Highly Enriched Uranium Removal Team
- Office of Environmental Management Minority Serving Institution Partnership Project Execution Team.
- Savannah River Site Lower Three Runs Final Remedial Decision Team
- Savannah River Site Phytoremediation Project Team

The SRS Phytoremediation Project Team was recently recognized with a Secretary of Energy Achievement Award.
