Virginia Tech

Bachelor of Science in Mechanical Engineering

Master of Business Administration

EXPERIENCE

Nicholas (Nick) Miller is the Senior Vice President of National Nuclear Security Administration (NNSA) Tritium Operations and Programs for Savannah River Nuclear Solutions (SRNS), LLC. He oversees daily operations at the Savannah River Tritium Enterprise (SRTE) to sustain a safe, secure and effective nuclear deterrent.

Miller has 20 years of project, engineering, and nuclear operations management experience, including serving as the Facility Manager for the H-Canyon and HB-Line facilities at SRS as well as oversight of facilities supporting the Refueling and Complex Overhaul (RCOH) of A4W Nimitz-Class Aircraft Carriers in Newport News, Virginia.

Before being appointed to his current position, Miller served as the Deputy Vice President for Environmental Management Operations at SRNS. In this role, he was responsible for five nuclear facilities at SRS, supporting NNSA and Environmental Management missions in nuclear non-proliferation, environmental stewardship and defense programs focusing on nuclear material handling, waste management, chemical processing, project management and facility closure.

Miller currently serves on the SRS Museum Board and is on the Board of Directors for Citizens for Nuclear Technology Awareness.
