

## Aflac Wellness/Health Screening Exams

If a person has any of the test listed under **Wellness/Health Screening Exams that count under all plans** it will count for both Accident and Critical Illness. If a person is enrolled in both products, Aflac will automatically pay under each plan so a person will submit only one claim. The person doesn't have to provide documentation but will have to list the Dr.'s/NP/PA etc. name, date of the exam and check the type of exam. When submitting a claim, you will need the employer codes, which are listed below:

- SRNS: 25615
- SRR: 25614
- BSRA: 27619
