

# Take the LEAP and join us!

**Leaders Emerging Among Professionals (LEAP)** is a peer-led organization dedicated to developing young professionals by exposing them to opportunities, leaders and the culture of Savannah River Nuclear Solutions (SRNS). LEAP organizes monthly professional development, outreach and networking events on- and off-site.

**PROFESSIONAL DEVELOPMENT:** LEAP believes that young professionals are the future of SRNS, so we offer many opportunities to grow and cultivate careers. Through resume workshops, site tours, public speaking workshops and Q&As with SRNS leadership, LEAP helps members grow both professionally and personally.

**OUTREACH:** LEAP encourages members to give back to the community in fun and fulfilling ways, such as participating in the CSRA Heart Walk, Ronald McDonald House events and Habitat for Humanity builds.

**NETWORKING:** By attending sporting events, pinball arcades, picnics and more, LEAP members get a chance to connect with fellow young professionals at SRNS. LEAP members also get a chance to network face-to-face with members of management, making lifelong professional connections.
